PreCalculus – Probability (mini unit)

The learner will be able to represent and model with vector quantities as well as perform vector operations that lead to application.

Tuesday March 21	**Probability – Permutations and Combinations** Handout – Permutations and Combinations Probability Examples Compound Events WS Permutations & Combinations WS
Wednesday March 22	**Probability Distributions and Histograms** Notes & Examples Probability Distributions and Histograms WS 1
Thursday March 23	**Constructing Probability Models** Notes & Examples Probability Distributions and Histograms WS 2
Friday March 24	**The Empirical Rule & Normal Distributions** The Empirical Rule Handout Notes & Examples Normal Distributions WS 1
Monday March 27	**Normal Distributions** Normal Distributions WS 2 iRespond Normal Distribution Extra Permutations and Combinations WS
Tuesday March 28	**Self-Assessment QUIZ** Permutations & Combinations Puzzle WS 57 & 58
Wednesday March 29	**Review**
Thursday March 30	**TEST**
Friday March 31 (Senior Picnic)	**TBD**
